## To Whom It May Concern

We received a letter from the City stating that we had too many vehicles in our back yard. I would like to appeal or debate this letter.

My husband and I were under the impression that if we have vehicles that are not licensed we could keep the in our backyard until we could get them licensed and on the road again. As long as the vehicles were not on the street we thought that was okay. A couple of the vehicles were licensed and were being held for relatives until they were settled. Those vehicles will be gone in a few days as they will go to their own homes.

I guess my question is...if we have vehicles that need to be repaired and we are financially unable to do so at this time, where are we supposed to keep said vehicles? We have no other place to keep these vehicles. We do have a vehicle that we want to restore and the back yard is the only place we have for it. We have a couple we are trying to get repaired.

Can we or can't we keep unlicensed vehicles in our back yard? As I said they will not be on any street traveled by the public.

Thank You,

M Elaine Parry
