Good Morning Jennifer,

I will be away from site tomorrow and unavailable to attend the utility board meeting. I am providing this email to serve as an update on "Old Business" Item B1.

Robinson currently has mining activities occurring across all three pits (Ruth, Liberty and Veteran). The following is a breakdown of dewatering efforts from the South Block:

Approximately 7,250 gpm is being pumped. Of that roughly 1,200 gpm is going into Gleason Creek and the rest is reporting to the Mill for ore processing needs. RW-7P is currently down to accommodate testing of the newly drilled and developed RW-7PR well.

Please let me know if there are any questions or concerns.

Thanks,

Kyle Tate
