Bike It Forward

WHITE PINE COUNTY SECOND RIDE PROJECT

Repurpose a Bike. Help a Neighbor. Get Someone Riding!

WHAT IS BIKE IT FORWARD?

A community project to collect, repair, and repurpose unused bicycles, giving them a second ride to people in White Pine County who can put them to good use.

FREE BICYCLES

Provided at no cost to community members.

OPEN TO EVERYONE

Available to anyone in White Pine County.

REUSE & REPURPOSE

Keeps usable bikes out of the landfill and gives them new life.

OUR REQUEST

We are asking the Ely City Council to consider allowing us to pull bicycles from the city dump (landfill) for the purpose of refurbishing and redistributing them through the Bike It Forward project.

Currently, removing items from the dump is not permitted. A waiver or formal approval would allow us to rescue usable bicycles, reduce waste, and put these bikes back into our community.

A Community Project by
