## **PANDEMIC CONTROL STATEMENT**

As we progress with the vaccination effort across our state and community, we are optimistic about the return of control of pandemic measures to our local jurisdictions.

Acknowledging this transition, the City of Ely will continue to encourage and support local vaccinations efforts. If you are willing and able to receive the Corona Virus vaccine, we encourage you to do so.

With the easing of capacity limits and other restrictions it is worth noting that the statewide requirement to wear masks in public is still in effect. Please continue to stay abreast of the most current CDC guidelines, remaining respectful of private businesses and individuals' choices.

The City of Ely will continue to work with the County Public Health Officer and the Public Health Nurse's Office in monitoring the spread of Covid-19 in our community. We encourage businesses, event planners and individuals to continue to cooperate with these entities as we move forward. Please stay home when sick and get tested if you suspect you have had an exposure to Covid-19.

The City of Ely's enforcements efforts will continue to be centered on education and testing. This course has allowed local health officials to isolate outbreaks and has largely spared our community the need for wide-spread closures.

We look forward to the many spring and summer community events that are being planned. The City of Ely will be doing all it can to support these events and to keep our community healthy and safe so that these events may proceed.
