

CITY OF ELY

Firefighter Trainee

FLSA Status: Non- Exempt

Safety Sensitive: Yes

Created: 9/2021

Last Revised:

DEFINITION: An Advanced Emergency Medical Technician (AEMT) or Paramedic (NRP) functions as a primary care provider in the pre-hospital setting and is responsible for all aspects of care provided to the sick and injured. The AEMT provides basic/intermediate life support, including ALS assessments, medication administration and cardiac monitor. The Paramedic provides advanced life support within the guidelines of the City of Ely Fire Department EMS Protocols. The AEMT/NRP are responsible for driving the ambulance in a safe manner and must have a thorough knowledge of the street, highway and addressing system. An AEMT will assume a support role and work under the direction of a Paramedic or Emergency Room Medical Doctor. The AEMT/NRP must understand all applicable legal, moral, and ethical issues surrounding emergency medical service and must be dedicated to continued learning through continuing education and maintenance of licensures and certifications required for the State of Nevada and City of Ely Fire Department.

ESSENTIAL FUNCTIONS: *(Performance of these functions is the reason the job exists. Assigned job tasks/duties are not limited to the essential functions).*

- Provide emergency medical care at the NRP, AEMT or EMT level.
- Must be able to use a variety of hose lines, deck guns, ground monitors, appliances, and other equipment to control and extinguish fires safely and effectively.
- Conduct forcible entry and conduct search and rescue operations.
- Participate in salvage and overhaul and other assignments as required on the fire ground.
- Use hand and power tools, rescue victims, secure utilities and provide ventilation when directed.
- Utilize appropriate personal protective equipment (PPE) including self-contained breathing apparatus (SCBA) during emergency operations, training evolutions and other times as appropriate.
- Clean, inspect, maintain, and perform minor repairs on Fire Department vehicles, apparatus, and related equipment to ensure operational readiness.
- Perform routine maintenance on fire station.
- Participate in staff support assignments including fire prevention, inspections, and investigations.

QUALIFICATIONS FOR EMPLOYMENT:

Knowledge, Skills, and Abilities:

Knowledge of:

- Advanced and basic cardiac, advanced pediatric, and basic trauma life support;
- Invasive and non-invasive therapy;
- Drug therapy as allowed by paramedic certification;
- Specialized patient monitoring devices and life support systems such as heart monitor/defibrillators, external pacing devices and pulse oximeters;
- Advanced treatment equipment such as suction units, airway management devices, hypodermic needles, blood collection devices, and drug delivery systems;
- Applicable laws, codes, regulations, policies, protocols and procedures relating to administering medical care;

- Psychological and behavioral factors related to emergency care;
- Universal precautions and infection control;
- Fire behavior in various weather conditions;
- Fire suppression tactics applicable to structural, wildland, vehicle and hazardous materials' fires;
- Characteristics and application of chemical fire retardants; and
- Facility and equipment maintenance.

Skill to:

- Efficient, effective and safe operation of fire equipment and maintenance of equipment;
- Evaluating patient's conditions and properly render emergency medical care including the administration of emergency medications;
- Learning and mastering a variety of fire-fighting duties, methods and techniques;
- Responding quickly and effectively to changing situations under emergency conditions;
- Preparing and composing reports and records on activities performed;
- Communicating effectively in oral and written forms;
- Contributing to the efficiency and effectiveness of the unit's service to its customers by offering suggestions and directing or participating as an active member of a work team; and
- Following all established safety processes and procedures.

Ability to:

- Be confident and accept the challenge and high degree of responsibility entailed in this position.
- Have excellent judgment, be able to prioritize decisions and act quickly in the best interest of the patient.
- Function at an optimum level in a non-structured, and often difficult, environment that is constantly changing. They must possess critical reasoning skills.
- Possess excellent verbal communication skills and be able to follow orders with exactness from their supervisors.
- Trust their training and skills and be capable of applying them effectively in stressful situations.
- Provide emergency medical treatment to sick and injured persons at the advanced life support level;
- Use appropriate radio protocol with other fire, base hospital facilities, and emergency medical services personnel;
- Calmly and effectively manage personal reactions and the reactions of others in emergency situations;
- Train other fire personnel in emergency medical procedures;
- Present and participate in public education programs;
- Use patient carrying devices and safely move patients to the transporting unit;
- Participate in fire suppression, pre-suppression, prevention and fire station/equipment maintenance activities;
- Safely drive a fire or ambulance vehicle; and
- Work under stress.
