City of Ely Landfill Equipment Operator I, II & III

FLSA Status: Non-exempt

Created: 5/5/21

Safety Sensitive: Yes

Last Revised: 7/17/20

DEFINITION:

Under direct supervision of Landfill Lead Person, performs maintenance includes all daily and normal duties in the normal operation of all equipment. Some light mechanical work is also required.

ESSENTIAL FUNCTIONS:

- Maintenance includes all daily and normal duties required in the normal operation of all equipment. Some light mechanical work is also required. Applicant will report to the Landfill Supervisor and must be able to work as directed.
- Other duties include: ability to determine size and type of incoming load so direction can be given to the proper dumping location at the landfill, general appearance of the landfill, which includes picking up waste and debris left by the public or blown by the wind before coverage at the end of the work day.
- While at the entrance gate, will be responsible for daily log sheets providing information of the amount of incoming waste per load each day, must be able to convert cubic yards into tons and establish load costs, must be able to write legible reports, including correct spelling and grammar.
- Must be able to work well with the public and perform any and all work needed to operate the City of Ely Regional Landfill.
- A pre-employment drug and alcohol test is required with additional testing under the following conditions: random, reasonable causes, post-accident, return to duty and follow-up.

QUALIFICATIONS FOR EMPLOYMENT:

- Requires a current and valid Nevada Class CDL.
- A tanker endorsement will be helpful, but not required.
- A tanker endorsement will be required within the first six months of employment along with any and all other endorsements required in the future.

- Applicant must have experience and signed off on the operation and maintenance of the following or equal equipment:
 1. Level I – Dump Truck and Snowplow
 2. Level II- Dump Truck, Snowplow, Loader, Grader, Compactor and Dozer
 3. Level III- Dump Truck, Snowplow, Loader, Grader, Compactor, Dozer and Grader
- Position requires knowledge of general maintenance tools, equipment, materials, and methods of the activities of the function to which assigned.

Knowledge, Skills, and Abilities:

- Any combination of training, education, and experience would provide the required knowledge and abilities. A typical way to gain the necessary knowledge and ability is:
- Equivalent experience with maintenance, manufacturing, processing, or equipment.
- This class description lists examples of duties and requirements of the job and is not all-inclusive. Incumbents may be expected to perform job-related tasks other than those contained in this document and may be required to have specific job-related knowledge and skills.

Physical Demands & Working Environment.

Strength, stamina, walk on uneven or slippery surfaces; perform heavy manual tasks using hand tools such as shovel and picks; perform repetitive motions, including use of controls with hands and feet; climb up and down ladders; coordination and dexterity to adjust and make minor repairs to equipment; strength to lift and carry containers and equipment which regularly weigh up to fifty (50) pounds, and may occasionally weigh up to one hundred (100) pounds. Visual acuity sufficient to operate equipment, including depth perception sufficient to maneuver equipment and determine position of equipment components; ability to hear changes in operation of motors and other equipment. Work in outdoor and indoor environments with intermittent to frequent exposure each day to unpleasant elements such as vibrations, noise, dust, fumes and odors, dampness, noise levels or extreme weather conditions including heat, rain, snow, cold, wind, and dust. Occasional work in confined areas. Work is typically performed independently and may be isolated in geographic areas. Ability to travel to different sites and locations.
