Ely, Nevada – May 22, 2025 – Press Release

The City of Ely had it's last of three community clean ups on May 17, 2025. The area cleaned up was the overpass to the Mill Street turnoff. There were eight people that volunteered with eighteen 30-gallon bags of trash hauled off and miscellaneous tires, wood, and debris. The Young Single Adult Branch from the Church of Jesus Christ of Latter-Day Saints also participated in the campaign with a cleanup held May 21, 2025 down Great Basin Boulevard cleaning up eight 30-gallon bags of trash. The campaign was very successful with a total of sixty-six 30-gallon bags of trash and approximately two truck loads of large items such as tires, car parts, and debris cleaned up in less than a month. We want to encourage everyone to take pride and keep Ely Clean. If an individual or a group has interest in doing a clean up contact Councilwoman Melody Van Camp at 775-296-1524. The City hopes to make this an annual ongoing event.

The City of Ely is an equal opportunity provider and employer.
