Chairman report

4/27/22

Attached are some plant lists and prices of small nursery stock available from the Nevada Division of Forestry and from the University of Idaho Pitkin Nursery. I have also contacted a couple nurseries but only have feedback from one, Bailey Nurseries. Below are a list of the nurseries and their websites.

Bailey Nurseries <https://www.baileynurseries.com/programs/bareroot/>

Nevada Division of Forestry <https://forestry.nv.gov/washoe-state-tree-nursery>

University of Idaho <https://www.uidaho.edu/cnr/center-for-forest-nursery-and-seedling-research/pitkin>

McKay Nurseries <https://www.mckaynursery.com/>

The folks I talked with all said the time they sell is beginning in January so I would recommend we look at March/April for a buy if we want to grow our own trees. I would expect we would keep them at least one growing season but that is a discussion for after we plant the new stock and see how well we do growing it.

Tree Board – Informational links on software for tree inventory

This video shows examples of what the interface looks like for using tree inventory management software, how to add trees, edit info about existing trees, etc.

<https://youtu.be/s9L2NmnNM0A>

Here's an example of how the software can instantly create reports or give you summary data:
