Good Afternoon Bill,

The total project area looks like it is 68 acres. The total cost can be adjusted if acres are added or taken away. This project will be billed at an acre rate. The NDF grant coordinator said he suggests that the county or city apply for the grant and hire us a contractor to complete the project. Here is the cost break down.

68 Acres at \$2,000 per acre = \$136,000
188 hours for chipper at \$94 per hour = \$12,784
Project Total = \$148,784.

If you have any more questions please reach out.

Thanks,

Adam Strouse

Subject: Fw: Tree List For Ely

I asked John for the list of trees he plans on using instead of wading through all the pages in the meeting. Can you print out the list to pass out to the members?

Hi Bill,

These are the trees I have selected thus far.

Larger corner trees:

Urbanite Green Ash

Honey Locust

Mid block trees:

Little Leaf Linden

Royal Red Maple

Pacific Sunset Maple

Gingko biloba

Hope this get to you in time for your meeting.
